The Hiring Officer/Office of Human Resources

RE: MYRENE A. MAGABO

Hello:

It is with great pleasure I recommend Myrene A. Magabo for your position at Western Carolina University.

Myrene is a consummate educator with several years of experience, research and development in the fields of Speech, communication, media and digital design. Just a quick review of her extensive accomplishments illustrates the depth of her abilities and achievements.

I met Myrene about two years ago at Penn State Hazleton where we both teach. After speaking with her for just a short time, I realized what a warm and inviting person she was even with a total stranger. I consider her a good friend and highly respect her as a colleague.

As you read through her resume you will see all she has accomplished through research and education. Myrene's commitment to the community on and off campus is strong. She volunteers, mentors, presents and gives freely of her time in an effort to assist others. Myrene has the wonderful combination of helping others and doing so with intellect and heart.

If I can leave you with one final thought about Myrene is that she is an amazing human being. She is a giver, not a taker. She embraces every opportunity to meet another person with a smile and the anticipation of creating a new relationship.

Myrene is an outstanding choice for this position and not only will you gain an excellent educator, you will also get a contributor to your campus and community.

If you would like to talk with me some more about Myrene, please feel free to contact me.

Sincerely,

Pat Trosky
